A Badge of Honesty

Is printed on the outer wrapper of every bottle of

Dr. Pierce's Favorite Prescription

and it is the only medicine for woman's peculiar ailments, sold by druggists, the makers of which feel fully warranted in thus taking the afflicted into their full confidence.

The more known about the composition of Dr. Pierce's Favorite Prescription the more confidently will invalid women rely upon it to cure their peculiar weaknesses and derangements. There's no secrecy about its make-up—no deceptive inducements held out to the afflicted. It's simply a good, honest, square-deal medicine with no alcohol, or injurious, habit-forming drugs in its composition. Made wholly from roots. It can do no harm in any condition of woman's organism.

Devised and put up by a physician of vast experience in the treatment of woman's maladies. Its ingredients have the indorsement of leading physicians in all schools of practice.

The "Favorite Prescription" is known everywhere as the standard remedy for diseases of women and has been so regarded for the past 40 years and more. Accept no secret nostrum in place of "Favorite Prescription"—a medicine of known composition, with a record of 40 years of cures behind it.

It's foolish and often dangerous to experiment with new or slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Favorite Prescription." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Favorite Prescription.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages cloth-bound. World's Dispensary Medical Association, Proprietors, R. V. Pierce, M. D., President, Buffalo, N. Y.

A meeting of the promoters has been called for next Tuesday evening at 730 8th street. Mrs. K. A. Hodge is president of the legion and Mary A. Wood secretary.

Asked to Be An Arbitrator.

BUENOS AIRES, March 20.—The Venezuelan government has asked the minister of foreign affairs of the Argentine Republic to request Dr. Luis M. Drago to accept the post of arbitrator in the questions between the United States and Venezuela, which are to be submitted to The Hague tribunal.

Severely Burned by Live Wires.

PASADENA, Cal., March 20.—While working in the Carnegie solar observatory last evening Dr. Headley Gordon Gale, a University of Chicago scientist, came in contact with live wires from the transformer and was buried to the floor. Dr. Gale was found shortly after the accident. He had been severely burned about the hips and lower parts of his body. No serious results are anticipated.

CHARGES ARE SUSTAINED

POLICEMAN COLLIER ACCUSED OF NEGLIGENCE OF DUTY.

Accusations Pending at the Time Capt. Matthews Was Shot and Judged Well Founded.

Policeman John W. Collier, who recently shot Capt. William H. Matthews, was notified at the District jail last night that the members of the trial board—Inspector John A. Swindells, Capt. Schneider and Capt. Elliott—had found him guilty of the charges of neglect of duty brought prior to the tragedy, upon which he was tried at the prison yesterday. He was further notified that his dismissal from the police force had been recommended. Under the law it is necessary to notify accused persons of the result of trials and give them five days in which to appeal to the Commissioners.

Collier told the board yesterday that he had no desire to hear the testimony against him, and retired to his cell. It is the contention of the members of the trial board and of Assistant City Attorney Counsel Stevens, who represented the District at the trial, that the provisions of the law were complied with when Collier was given an opportunity to answer the charges. The fact that he accepted the advice of his counsel and withdrew, they contend, does not change the aspect of the case.

Attorneys W. E. Ambrose and John Lewis Smith, counsel for the accused policeman, will probably not determine just what action they will take until they receive the formal notice sent by the police department to their client. They may take advantage of the law and appeal the case in order to preserve certain rights, or they may wait until after Collier is released from the jail to make his appeal.

Collier's counsel conferred with him yesterday afternoon. They have been busy engaged in the preparation of the case for trial, and say they expect their client will be acquitted. Upon what grounds they base their claim of prospective acquittal is not known, nor are they likely to make any announcement respecting their line of defense until the case reaches court. It is recalled that Collier said he would give his reasons for the killing of Capt. Matthews at the proper time, but it seems that time has not arrived. What his defense is to be the police cannot imagine.

MEETS HIS OLD COACHMAN

PRESIDENT GREET'S ACQUAINTANCE OF 20 YEARS AGO.

Episode of His Recent Trip to New Haven—Railway Watchman Glad to See "Bill."

Special Dispatch to The Star.

NEW HAVEN, Conn., March 20.—President Taft met an old friend in this city yesterday whom he had not seen in twenty years. He was Jack Shea, a watchman at the New York and New Haven Railroad shops. A quarter of a century ago Shea was the Taft family coachman and used to drive Bill, as he called him, around Cincinnati. Jack had tried to get near the President during his visit in the city, but had failed because of the crowd. Finally, at the depot, he scribbled his name on a slip of paper, and flourishing it above his head, desperately pushed his way through the mob, and seeing Detective Ward at the train steps urged him to let him get to the President.

"Give him this slip of paper and he will see me," declared Jack. "Are you kidding?" Ward's interest was then aroused and he attracted the attention of Capt. Butt, the President's aid. Capt. Butt came to the platform and called for the "man with the note."

"That's me," replied Shea, holding the paper up. Capt. Butt took it and gave it to the President immediately.

Recalled by President.

As the President read the note he recalled that Jack Shea had been a favorite coachman for the family twenty years ago.

"Hello, Jack," the President cried as he stepped to the platform, grabbed Shea's right hand in his two fists and shook it heartily.

"Hello, Bill," exclaimed Shea, climbing upon the steps, "had I ought to call you that now? I called you Bill as a boy, and then I called you Jack and now I'm President."

"Call me anything you like, Jack," smiled Taft. "Are you married?" he asked a moment later.

"Sure, who'd have me?" replied Jack. "Think of all the pretty girls you used to know," teased the President. "Got a good job?" he asked.

"Not as good as yours," returned Shea, "but I've got good place with the railroad here, sir."

Having Enough to Eat.

"Well, you look as if you were having enough to eat," remarked Taft.

"Yes, but not as much as you," returned Shea, poking the President at the waistline, good-naturedly.

During the greeting the engineer was pulling the engine bell wildly and the conductors were shouting their "all aboard."

"Well, Jack, I'm mighty glad to see his hand again."

"So long and be good," was Shea's informal farewell as he joined the crowd again.

Shay explained that a quarter of a century ago the Tafts kept their horses and equipages at his brother's stables in Cincinnati. Shea was employed there and acted as coachman for the President's father for a number of years. He often drove young Taft around, he says, and there was a strong attraction between them. Shea left Cincinnati twenty years ago to come to this city and has lived here ever since. "I've kept track of Taft all the while," he declared. "You bet I voted for him for President, though I hadn't seen him for eighteen years."

ECHO OF FIDELITY FAILURE.

Suit for \$15,000 on Notes of Visitation Sisters Begun.

PEORIA, Ill., March 20.—Suit for \$15,000 on the notes of the Sisters of Visitation at Rock Island and held by the National Copper Bank of New York City began today. The notes were originally given to the Fidelity Funding Company of New York.

The Nauvoo Sisters gave notes to the amount of \$350,000 to Kieran, who induced them to New York banks.

When suit was commenced in the circuit court at Springfield, Ill., the sisters claimed that Kieran gained their confidence, and when they gave him blank notes he increased the intended amounts, they not knowing of the fraud until the notes were due.

It is expected that the same allegations against Kieran will be made by the Rock Island Sisters.

First Show Signs of the Blood Poverty Which Causes Most Skin Diseases.

It is a strange truth that pimples usually appear upon the face, thus illustrating that nature uses the most direct method of conveying man that the blood is filled with poison.

The human circulatory system is said to be the most wonderful of all evidences of nature. It carries health, food and strength to every part of the body. It also carries from every part of the body all germ life, waste matter and decay.

If through poor eating, indigestion, constipation, or the blood is filled with poisons, decaying, irritating fluids, these poisons are carried to the lungs, where they are attempted to be cleaned by the oxygen from air inhaled.

If this does not succeed, the poisons demand of the blood taken away the poison and carries it to the little cells of the skin, where they leave it. Here these poisons irritate and decay, until at last they form pimples and blackheads and other skin eruptions; at last bursting or are removed by man.

When you have pimples it is a certain sign your blood is wrong, that the great human blood system is turned into an intricate series of sewerage canals which are filled with impurities.

Science long ago learned that Calcium Sulphide was the most powerful, harmless and beneficial blood purifier obtainable.

Stuart's Calcium Waters, under chemical tests, conclusively prove themselves to be one of the best methods of preserving the full strength of this great blood cleanser.

The real beauty of Stuart's Calcium Waters lies in their rapid work. Their good effects are seen after only a few days' use, and a face full of pimples has been made clear and clean after only five days' use of these waters.

These waters, by the peculiar Stuart process, preserve and hold the full strength of Calcium Sulphide, so that it exerts its cleansing action in its most efficient state.

Other methods of administering and preparing Calcium Sulphide have proven Stuart's Calcium Waters to be the best method.

Go to your druggist and buy a box of these little pimple eradicators today, price 50c, or send us your name and address and we will send you a trial package by mail free. Address P. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.
